Remarks

This Windlestrae gem is just waiting for you to move right in. As you enter the front door you will immediately feel like you are right at home. This great home is one of the largest in the community with the builder added bump out on the back of the home on both the 1st and 2nd floors. The large kitchen features tons of cabinets and granite counter space including a oversized island that features a breakfast bar for those easy morning meals. The open floor plan allows for all the action to stay in one place as you entertain your guests as the living room, dinning room and breakfast room are all open to the kitchen. All of these areas are drenched in natural light but also feature a multitude of recessed lights throughout the space to make sure that there is plenty of light even at night. This floor is complete with access to the garage, a powder room and door from the breakfast room out to the rear yard. Head down to the basement where you'll find a massive finished basement that is perfect for additional living space, a media/game room along with a space for a desk as we all are becoming accustomed to working and schooling from home. Don't worry about having to head back upstairs and miss the big game as the basement has an additional powder room as well. Unstairs the large primary
